

The Bidding Accelerator

Stop wasting your best estimators on bids you'll never win.

Estimators waste most of their time on bids they'll never win — chasing low-probability work while high-value deals sit unworked. We rebuild the bid process so it auto-screens doomed work and sharpens the ones worth chasing — turning your team into the fastest bidder.

HOW IT WORKS

• Heuristic Scoring

Low-probability bids are flagged and auto-rejected — before they consume a single hour of estimator time.

• Estimator Redeployment

Time reclaimed from doomed bids goes back to pursuits that actually close, compounding revenue output.

• Winning Bid Assembly

Remaining bids are structured, priced, and refined at speed. Your team focuses on craft, not logistics.

• Speed as a Moat

First to quote wins. The accelerator makes you the fastest bidder in your market — a durable competitive edge.
