

The Construction Bidding Accelerator

Stop wasting your best estimators on jobs you'll never win.

Every trade and GC faces the same problem: estimators spend most of their time building bids on work they'll never win — chasing volume while high-probability jobs sit under-resourced. We screen out doomed work and assemble winners at speed.

HOW IT WORKS

• Heuristic Bid Screening

Every incoming opportunity is scored against your win history, project type, geography, owner relationship, and margin profile.

• Winning Bid Assembly at Speed

Remaining bids are structured, takeoff-ready, and pre-populated with historical unit costs and subcontractor pricing.

• Auto-Rejection of Low-Win-Rate Work

Bids below your win-probability threshold are flagged and declined automatically. Your team is immediately redeployed to real pursuits.

• Speed as a Market Moat

First to quote wins. Whether you're a GC, electrical, mechanical, civil, or specialty trade — the engine makes you the fastest.
