

The Contract Intelligence Accelerator

Stop paying lawyers to do work a machine should handle.

Contract review is one of the most expensive manual processes in any business — attorneys reading every clause, flagging risks, summarizing obligations by hand. We ingest, score, and surface what matters — judgment, not processing.

HOW IT WORKS

• Automated Ingestion & Parsing

Every contract — NDAs, MSAs, vendor agreements, leases — is ingested, parsed, and structured automatically. No manual upload.

• Obligation & Renewal Tracking

Key dates, payment obligations, notice periods, and renewal windows are extracted and tracked automatically — so nothing slips through.

• Risk Scoring & Clause Flagging

Liability caps, indemnification carve-outs, auto-renewal traps, IP ownership clauses, and non-standard terms are flagged and scored.

• Human Review on the Exceptions

Your attorneys see a structured summary, flagged risks, and a recommended action — not a raw document. They review what matters.

BEFORE & AFTER

BEFORE

Time to review a contract	Hours to days per doc
Risk identification	Manual read — misses happen
Renewal / obligation tracking	Spreadsheets, calendar reminders
Legal team capacity	Volume-constrained

AFTER — WITH THE CONTRACT ACCELERATOR

Time to review a contract	Minutes — auto-summarized
Risk identification	Automated — consistent, complete
Renewal / obligation tracking	Live — auto-flagged ahead of time
Legal team capacity	5× throughput, same headcount

Perfect client score

Current state: Attorneys and paralegals manually reviewing every contract — hours per document, obligations tracked in spreadsheets, renewals routinely missed.

Future state: Contracts ingested, scored, and summarized automatically. Legal team reviews flagged exceptions only. 5× throughput, zero missed renewals.
