

The Insurance Underwriting Accelerator

Stop letting your best underwriters drown in submissions they'll never bind.

Underwriters manually score risk on every submission — most will never bind. We rebuild the triage process so low-probability risks are auto-screened and high-value submissions are structured, scored, and priced at speed.

FASTER TRIAGE

Submissions scored and routed in minutes, not days

~3×

MORE CAPACITY

Same underwriting team binds more premium

#1

FIRST TO QUOTE

Speed is the moat — you win the best risks

HOW IT WORKS

• Submission Ingestion & Scoring

Every incoming submission is ingested, parsed, and scored against your appetite, loss history, and pricing parameters — automatically.

• Structured Quote Assembly

Remaining submissions are structured, enriched with third-party data, and pre-priced for underwriter review.

• Low-Probability Risk Screening

Submissions outside appetite are flagged and declined automatically. Underwriters only see the risks worth quoting.

• Speed as a Competitive Moat

The brokers who get quoted first win the account. The engine makes you the fastest responder in your market.

BEFORE & AFTER

BEFORE

Submissions reviewed / day	Manual — limited by staff
Time to first quote	Days to a week
Underwriter time on declines	~60% wasted on bad risks
Premium bound per underwriter	Capacity-constrained

AFTER — WITH THE UNDERWRITING ACCELERATOR

Submissions reviewed / day	Unlimited — auto-triaged
Time to first quote	Hours — same day
Underwriter time on declines	~5% — engine screens first
Premium bound per underwriter	3× — automation-amplified

PROOF — CLIENT SUCCESS STORY

Proven Results **INSURANCE UNDERWRITING**

10.0 NPS

Perfect client score

Current state: Underwriters spending the majority of their day triaging submissions that fall outside appetite — most never binding.

Future state: Auto-screening rejects poor-fit risks instantly; remaining submissions pre-structured and priced. Same team, 3× the bound premium.
