

The M&A Accelerator

Stop letting due diligence and integration drag your deal value out the door.

M&A value erodes in the gap between signing and integrating — due diligence is a manual grind, and post-close integration of systems, contracts, and workflows takes months of expensive coordination. We compress both with AI — so you close faster, integrate cleaner, and capture more value.

Of conventional M&A technology buildouts

HOW IT WORKS

• AI-Powered Due Diligence

Contracts, financials, HR records, and operational data are ingested and scored automatically — risks flagged, gaps surfaced.

• Process Integration & Automation

AP/AR, onboarding, contract management, and reporting workflows are re-engineered across the combined entity — automated from day one.

• System & Data Consolidation

CRM, ERP, and back-office systems from both entities are mapped, reconciled, and consolidated into a single owned platform.

• Value Capture Tracking

Every synergy target — headcount, vendor consolidation, revenue cross-sell — is modeled live so leadership tracks actual capture.

BEFORE & AFTER

BEFORE

Due diligence timeline	3-6 months manual
System integration	6-18 months, costly
Post-close process chaos	Months of coordination
Synergy capture visibility	Spreadsheets & guesswork

AFTER — WITH THE M&A ACCELERATOR

Due diligence timeline	2-4 weeks automated
System integration	Weeks — owned outright
Post-close process chaos	Automated from day one
Synergy capture visibility	Live model, real-time tracking

PROOF — CLIENT SUCCESS STORY

Proven Results **MERGERS & ACQUISITIONS**

10.0 NPS

Perfect client score

Current state: Due diligence running 3-6 months; post-close integration consuming 6-18 months of IT and ops bandwidth at significant cost.

Future state: DD automated in weeks; systems consolidated and workflows re-engineered into a single owned platform — live in under 60 days.
