

The Revenue Cycle Accelerator

Stop leaving reimbursement on the table because the process is too manual to keep up.

Healthcare revenue cycle teams are buried in prior authorizations, claims denials, and billing reconciliation — all manual, all consuming skilled staff time that should go to exceptions. We automate the 90% so your team captures more revenue.

PROOF POINTS

AUTOMATED

Routine claims processed without human touch

~35%

DENIAL REDUCTION

Prior auths and claims submitted clean the first time

~3x

MORE THROUGHPUT

Same RCM team processes far more claim volume

HOW IT WORKS

• Prior Authorization Automation

Prior auth requests are generated, submitted, and tracked automatically based on payer rules and clinical criteria.

• Denial Triage & Appeal Routing

Denied claims are categorized, root-cause analyzed, and routed for appeal automatically. High-value denials are prioritized.

• Claims Scrubbing & Clean Submission

Every claim is scrubbed against payer-specific rules before submission — coding errors, missing modifiers, and eligibility gaps caught upstream.

• Revenue Reconciliation & Reporting

Payments, adjustments, and outstanding balances are reconciled automatically across payers. Leadership sees cash flow and denial trends live.

BEFORE & AFTER

BEFORE

Prior auth processing time	Days — manual submission
Clean claim rate	~80% — errors slip through
Denial rate	~15-20% industry average
RCM team capacity	Volume-constrained

AFTER — WITH THE REVENUE CYCLE ACCELERATOR

Prior auth processing time	Hours — automated
Clean claim rate	~97% — scrubbed before send
Denial rate	~10% — caught upstream
RCM team capacity	3x throughput, same team

10.0 NPS

Perfect client score

Current state: RCM team manually processing prior auths, scrubbing claims, chasing denials — routine work consuming capacity that should go to exceptions.

Future state: 90% of routine claims processed automatically; denials caught upstream; same team captures ~35% more reimbursement revenue.
